The
OMBRE
EXPERIMENT A Lucid Dream
Yellow Goat Design 

We are literally witnessing an Ombre Experiment each day, as the sun creeps into the sky and then gradually blends back into the night. The world and its ever expanding collection of colored hues are whirling around us. Now watch those moving tints and shades transforming from light to dark. It's a lucid dream. This series of pendants and architectural screens uniquely capture this extraordinary spectacle, be it wildly organic or sophisticatedly structured. Whether it's the Perpetual Night bringing the aurora into the daylight or your childhood question of Love me or Love Me Not. You are waking up to live the lucid dream that these beautiful handcrafted creations embody.

FALL/WINTER 2019

AWAKENING

Transitioning through each day on autopilot, we rarely stop and reflect on what is. What it is to pay someone a compliment, what it is to have the morning sun kiss your cheek or what it is to have the ocean wash over you and reset your mind. Reflection is the true awakening. Digitally printed colors on acrylic suspended individually with LED light in the center.

Materials: Acrylic
Dimensions: Ø5' x 2' H

BLUR

Like the candle light flickering in the dark, the Blur pendant features soft gradation of digitally printed acrylic blades that resembles the candle lights dancing with the wind and igniting the lucid.

Materials: Acrylic

Dimensions: Ø2'-1" x 3'-1" H

EUPHORIA

It is that feeling when you know something good is coming, or you had a great idea, or you fall in love. Euphoria is when the air changes its consistency and gravity releases its constant hold. Everything seems brighter and more vibrant. In our Euphoria fixture, individual wings are made out of thin sheets of aluminum. By fixing and tensioning them in the center, the rigid metal sheets naturally flex and the fixture lifts off into an experiment of color, material and tension working as one to create a euphoric art form.

Materials: Aluminum

Dimensions: Ø3'- 3" x 1'-10" H

FRAGMENTED ILLUSION

When you wake up in the morning and you have no memory of your dream, all you have is a feeling and a fragmented picture of something intimate and close. The abstract elements in our Fragmented Illusion cluster resemble this fragile fluttering memory of a dream, familiar in shape and at the same time completely unusual and unexpected.

Materials: Polycarb

Dimensions: 11'-10" L x 3'-11" W x 5'-3" H

(INDIGO) PHANTOM

Perhaps we cannot see it in the first glance, but it does not mean that it does not exist. Seeing beyond our senses we discover deeper meaning. The elegance is in the simplicity of this design. Digitally printed strips of fine polycarbonate drape over and fluidly change colors to create a shade that reveals a blue interior when the light comes on. Available in custom colors.

Materials: Polycarb
Dimensions: Ø1'-11" x 1'-9" H

LOVE ME NOT

It is a silly game of fortune telling that everyone played as a child. This screen, however, is so much more than that. It is a sea of flowers that flood space with optimism and inspiration. Incorporating 3D printing technology and a hand dying process, this design remains fresh through all the seasons.

Materials: 3D printed SLS flowers, Steel, Plywood
Dimensions: 3'-11" W x 14'-5" L x 4'-3" H

MIRAGE

It might have been a dream. One night they found an upside down oasis. As they looked up to catch the final glance of the setting sun, the oasis suddenly scattered into thin pieces of shiny elements and soaked the desert. If it was a dream, it was a lucid one.

Materials: Aluminum

Dimensions: 11' x 8'-6" x 14'-1" H

PERPETUAL NIGHT

Our grandfather once told us, if you have been good, when you fall asleep, you could fly to the North Pole and become the beautiful blue-green aurora. Some nights I would dream that I had become the sea of green lights. Perpetual Night brings the aurora into the daylight, along with the story of our grandfathers. Dreaming of this ombre experiment is the inspiration for this design.

Materials: Wood

Dimensions: 35'-9" L x 5'-3" W x 13'-1" H

FALLING HORIZON

Soft wonky shapes are clustered together just enough to divide the space. Inspired by the undulating waves and curves that blur the line of horizon in a hazy dream.

Materials: Ezo Board, Aluminum
Dimensions: 15'-1" L x 2'-5" W x 5'-7" H

DREAM WITHIN A DREAM

Seemingly never ending threads form a loop of yarn. Each thread is part of the whole and at the same time has individual shape and character. In this case, threads of metal finished in individual ways loop together to create an ethereal cloud with a brightly lit LED core.

Materials: Aluminum
Dimensions: Ø4'-11" x 2'-3" H

WE DESIGN COOL STUFF.

Yellow Goat Design has been creating award winning designs for the hospitality, corporate, retail, healthcare, aviation, multi-residential, and institutional markets for over 20 years.

We pride ourselves on offering...

AWARD WINNING LIGHTING, SCREENS & SCULPTURES
