

# ABSTRACT NATURE

Abstract Nature is a celebration of the unusual beauty of Biophilia. Each design centers on connection, balance, and craft ideas and creates a space to reconnect to ourselves and the unique character of our planet. Materials range from cork to wood to Tyvek. They are used in pendants, screens, and chandelier forms. Each lighting or screen design is an ode to reflection, from the gills found under the mushroom cap to the humble terraces carved into hillsides.

## **ABSTRACT NATURE - FALL 2022**

---

# CANOPY

An inverse companion to our Cambium pendant, Canopy's shape is flipped to shine light downwards. Gently curved shades are made from renewable cork that encapsulates a powder-coated ring, the shades are washed internally with rays of light from within. This pendant is made from multiple shades of cork, arrayed around a 1.5" x1.5" powder-coated ring (interior face lit by LED). Suspended on stainless steel cables from ceiling mounted wire grippers / escutcheon in mir-

Gently curved shades made from cork, a renewable material, encapsulate a powder-coated ring while the shades are washed internally with rays of light from within. The pendant is made from multiple shades in cork, arrayed around a 1.5" x1.5" powder-coated ring (interior face lit by LED). Suspended on stainless steel cables from ceiling-mounted wire grippers/escutcheon in mirror finish.

# CAMBIUM

# LAMINAR

In an uninterrupted flow, individually suspended modular elements in two sizes come together as an elegant and energetic feature. Laminar is a horizontally suspended pendant made from softly curved plywood panels with decorative aluminum brackets and lit by a centrally located strip of LED.

This pendant mimics energy releasing itself into the sea, like the branching arms of an estuary. This piece is a vertically suspended pendant made from softly curved plywood panels with a decorative aluminum bracket and lit by a centrally located strip of LED. Suspended on stainless steel cables from a  $\text{O}4.75$ " escutcheon in mirror finish.

# ESTUARY

# SLIPSTREAM

The motion of repetitive curves, overlapping and amplifying are found in this sculptural screen. Laminated strips of fine birch plywood, attached to a powder-coated metal frame, come together as a tactile and dynamic fixture that simultaneously has an airy and light presence.

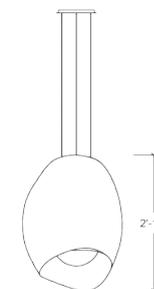

Get drawn in by the enticing form of the Lamella. Folded sheets of Tyvek array a glowing central core and create a stunning effect of being beneath a mushroom cap. 60 Tyvek panels are arranged on a metal frame, lit by LEDs. The fixture is suspended on stainless steel cables from a mirror ACM escutcheon.

# LAMELLA

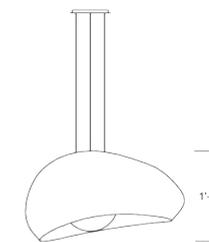

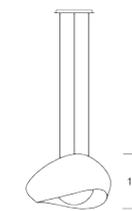

TALL

SQUAT

SMALL

# PILEUS

Formed like a mushroom cap with an imperfect shape, Pileus celebrates the organic beauty of varieties. This pendant is made in EPS (expanded polystyrene) finished in a textured cork-spray finish. Lit by an LED inside a Ø10" opal acrylic sphere and suspended on stainless steel cables from a Ø10" mirror ACM ceiling escutcheon. It comes in three sizes and shape variations: Tall, Squat, and Small.
