

# RADIANCE

Summer of 2022 brings a waxing, waning, and a treasure ready to be found. In our new collection, Radiance, we have created three designs that are mutable and beautiful in nature. The Crescent cluster is an ode to the positions of the moon; the Equinox changes in shape and orientation to herald the arrival of the seasons. The crowning jewel, Bijou, is a classic shape with abstract tendencies. Each of these unique designs is shown in various sizes, finish, and forms to allow the viewer to imagine the endless possibilities of our bespoke designs. We hope you enjoy.

# CRESCENT

The Yin to the Yang, two elements come together. Crescent Perigee and Crescent Apogee are made from two moon-shaped acrylic elements fixed to a gently curved metal tube. They are lit by a concealed LED strip that gives them a subtle, magic glow, like a cluster of suspended moons.

Since the earliest civilizations, the Equinox event has been celebrated and impacted our cultural selves and our understanding of a mysterious universe. Equinox represents the moment of balance between day and night. Our powder coated metal design is also a balance between dark and light, harmony and chaos, and obeys a cosmic rhythm as it flows through the space, similar to the movement of the sun.

# BIJOU

Bijou is a chic interpretation of the finest of French jewelry adorned by the most stylish of actresses from Hollywood's golden era. A slightly twisted, textured glass shade diffuses an internal LED and is set between a supporting powder-coated bridge.
